

**Message of Peace and Goodwill**  
**from the young people of Wales to**  
**young people around the world.**

Afghanistan. An atmosphere of fear, bombs and nervous tension. Can we escape?

Oppressed by society. Chaos reigns. Injustice prevails.

Can we break free? Living in a danger zone. Landmines. Kidnapping. Corruption.

We must end this now. This is our world.

Afghan people are entitled to live peaceful lives like the young people of Wales.

There is more to Afghanistan than war; life isn't all bad there. The people have dreams. Women are fighting for their rights. More young people have access to education than ever before. We must protect the innocent and end prejudice. This is our world.

Our generation will shape the future. World leaders need to communicate better in order to establish world wide peace. We recognise that war violates human rights and demand that everyone has the right to freedom. We appreciate the differences of others with mutual respect. This is our world. Let's unite in peace.

Created by pupils of Bryntawe and Bishopston secondary schools, Swansea
